

The company Amenesik SARL

The creation of the company Amenesik SARL was finalized in November 2014 at Company House in Melun, France RCS 807879325. The objectives of the company include offers of both service and products in the fields of Information Technology, Music and Communication based on the skills and expertise of the three founding partners of 'Amenesik, Iain James Marshall, Jean Manuel Lopez et Pascale Cartegnie.

CompatibleOne Accords Platform and Cloud Expertise

Iain James Marshall was one of the contributors of the cloud project «CompatibleOne» having conceived and realized the foundations of the architecture of this Open Source Brokerage Platform allowing for the description, provisioning, management and monitoring of application computing resources deployed in the Cloud. This platform allows the provisioning and the oversight of all types of application resources at IaaS, PaaS and SaaS level, on the principles offers and actors of the public and private Cloud.

“Sound Street” and “Rue de La Zik” Application Software

The Company Amenesik is currently in the process of finalizing the professional application named "Sound Street" for anglophones and "Rue de la Zik" for francophones. This software is based on traditional servers and WEB technology and is an ideal candidate for the study and evolution of cloud scaling and load balancing technology. The software is currently operating in the Amazon Cloud and allows the creation and development of a new social network for use by professionals of music and performing arts industry throughout the world. It will also be accessible to the general public, who will be able to find there an agenda of live shows and events.
